Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech	Indian Institute of Information Technology, Una	8.78 (Current)	2024-Present
Senior Secondary	CBSE Board	95.8%	2023
Secondary	CBSE Board	98.3%	2021

Projects

- **Attendance Tracker** *March 2026*
  React, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Chart.js GitHub | Live
  – Built a full-stack attendance tracker with multi-subject management, attendance analytics, and historical records, supported by 17 REST API route handlers.
  – Developed target-based attendance forecasting to calculate required classes and permissible absences for configurable attendance thresholds of 75%–90%.
  – Implemented JWT-based authentication, MongoDB persistence, interactive Chart.js visualizations, and a customizable weekly timetable with a responsive, mobile-friendly interface.
- **Receiptly AI** *June 2026*
  React, Node.js, Express.js, MongoDB, OpenRouter API, JWT, Multer, Tailwind CSS GitHub
  – Developed an AI-powered receipt tracker that extracts merchant, amount, category, date, notes, and line items from receipt images using OpenRouter vision models.
  – Implemented secure authentication and engineered 9 REST API endpoints using Express.js and Node.js for robust CRUD operations, AI insight generation, and image management.
  – Built an interactive expense dashboard with categorized spending analytics and AI-generated financial insights.
  – Designed a responsive React interface and integrated backend APIs with MongoDB for persistent receipt and expense management.
- **BlogSphere** *September 2026*
  React, Node.js, Express.js, MongoDB, Tailwind CSS, Framer Motion, Socket.IO GitHub
  – Developed a full-stack blogging platform that enables users to publish text-and-image blogs and explore content shared by other users.
  – Built a responsive React interface with Tailwind CSS and Framer Motion for smooth animations and an engaging user experience across devices.
  – Designed a scalable REST API and MongoDB-backed architecture, implementing full CRUD functionality to manage blog posts and user comments.
  – Integrated Socket.IO to implement a real-time commenting system on blog posts, enabling instant user interaction and engagement.

Technical Skills

- **Programming Languages**: C, C++, Python, JavaScript, SQL
- **Frameworks & Web**: React.js, Node.js, Express.js, Tailwind CSS, REST APIs, JWT
- **Databases, Tools & Deployment**: MongoDB, MySQL, Git, GitHub, Postman, Vercel, Render, OpenRouter API
- **Core Subjects**: Computer Networks, Operating Systems, Database Management Systems, Data Structures and Algorithms, Object Oriented Programming, Compiler Design

Key Courses Taken

- **Mathematics**: Linear Algebra, Discrete Mathematics, Probability and Statistics
- **Computer Science**: Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Compiler Design

Positions of Responsibility

- **Tech Team Member**: Force Coding Club, IIIT Una *2024 – Present*
  – Participated and volunteered in an Open-Source Workshop organized by the club **(Certificate)**

Achievements

- **JEE Main**: Achieved 98.03 percentile in JEE Main
- **Academic Performance**: Maintaining a CGPA of 8.78 and ranked among the top 15% of the batch
- **Algorithmic Problem Solving**: Solved 400+ problems on LeetCode and 200+ on GeeksforGeeks
- **Hackathon Participation**: Participated in the Adobe India Hackathon **(Certificate)**
- **Competition Participation**: Participated in the Unstop Elite Quiz 5.0 **(Certificate)**
